

**List containing information and articles about
„Altered Genes – Twisted Truth“:**

Warning against Genetically Engineering –
George Wald, Nobel-Laureate for Biology declared:

„Recombinant DNA technology faces our society with problems unprecedented not only in the history of science, but of life on the earth. It places in human hands the capacity to redesign living organisms....Such interventions must not be confused with previous intrusions upon the natural order of living organisms.....

[It is] the biggest break in nature that has occurred in human history.“
George Wald, Nobel laureate; Professor of Biology Emeritus, Harvard University

(quoted from „Altered Genes, Twisted Truth, page 87)

List containing

- a) information about the book „Altered Genes, Twisted Truth“
- b) articles and other texts by the book’s author Steven Druker
- c) links to videos with the author
- d) other articles underpinning Druker’s essential statements

a) About the book „Altered Genes, Twisted Truth“ (short: AG-TT):

1) website of the book: <http://alteredgenestwistedtruth.com>

2 - I) summary of its contents:

<http://alteredgenestwistedtruth.com/additional-content/executive-summary/>

- II) Information about the author Steven Druker:

<https://allianceforbiointegrity.wordpress.com/about/>

3) Worldwide well-known biologist Jane Goodall supports “Altered Genes, Twisted Truth”, she is shocked of the ignorance of gene-engineers and proponents of genetic engineering (short: GE) who omit basic biological facts– see the articles:

I) „Jane Goodall teams with US lawyer to expose government and scientific fraud over GM food“:

<http://gmwatch.org/index.php/news/archive/2015-articles/15973>

II) Jane Goodall reviews “Altered Genes, Twisted Truth”:
<http://gmwatch.org/index.php/news/archive/2015-articles/16042>

4) Interviews with book-author Steven Druker:

I) interview - National Geographic:

<http://news.nationalgeographic.com/2015/04/150422-genetically-modified-food-agriculture-health-ngbooktalk/>

II) first part of the Interview with Dr. Mercola,
title: “Altered Genes, Twisted Truth—How GMOs Took Over the Food Supply,
Part I Druker”:

<http://articles.mercola.com/sites/articles/archive/2015/03/08/altered-genes-twisted-truth-gmo.aspx>

III) second part of the interview with Dr. Mercola:

<http://articles.mercola.com/sites/articles/archive/2015/03/15/altered-genes-twisted-truth-gmo-part-2.aspx>

5) Steven Druker receives the Luxembourg Peace Prize 2017 for
“Outstanding Environmental Peace Engagement”:

<https://luxembourgpeaceprize.org/laureates/outstanding-environmental-peace/2017-steven-druker/>

b) Articles and other writings by book-author Steven Druker:

1) Open Letter to Monsanto – Druker invites Monsanto and all the other proponents of GE to tell him every error or incorrectness in his book:

<http://alteredgenestwistedtruth.com/challenge-to-monsanto/>

You will find e. g. two articles about this letter here:

<http://articles.mercola.com/sites/articles/archive/2015/06/02/monsanto-challenge.aspx>

and:

<http://www.gmwatch.org/news/latest-news/16183>

2) First open letter to the eldest scientific institution of the world, the Royal Society of England:

http://www.gmfreecymru.org.uk/open_letters/Open_letterMarch2015.html

3) Second open letter to the Royal Society of England:

http://www.theecologist.org/blogs_and_comments/commentators/2921277/the_royal_societys_assault_on_the_science_of_gm_foods_must_cease.html

4) Important articles by Steven Druker published after the publication of his book – the titles will tell you what they are about:

I) „How Gmos are defended-by-distorting-the-facts“:

<http://www.gmwatch.org/news/latest-news/16694>

II)

http://www.theecologist.org/News/news_analysis/2987893/royal_society_must_end_its_partisan_unscientific_support_for_gm_crops_and_food.html

III) <https://www.independentsciencenews.org/health/how-the-ge-food-venture-has-been-chronically-dependent-on-deception/>

IV) The GE-lobby misuses 121 misinformed nobel laureates for its GMO propaganda:

<http://gmwatch.org/news/latest-news/17320>

c) Videos with Steven Druker:

1) Opening speech on the symposium „Gentechnfrei.ch“ in Switzerland in 2016

„Why the GMO venture is scientifically unsound“:

<http://symposium.gentechfrei.ch/>

2) Druker at Cornell University:

<https://www.youtube.com/watch?v=jgT3lbBXvfY&feature=youtu.be>

please have a look at the article referring to this particular event:

http://www.theecologist.org/essays/2985883/surprise_cornell_is_taking_the_gmo_safety_debate_to_a_new_level.html

3) Two lectures on Robert Schooler's website, a courageous Cornell-student:

<http://www.gmowtf.com/gmo-course/> :

(1)st lecture: "GE-foods a history of deception"

(2)nd lecture: "Why bioengineering is really biohacking"

Robert Schooler is engaged against the massive GE-Lobby's disinformation-policy and -campaigns at the universities of the whole USA- please see:

<https://www.independentsciencenews.org/health/the-gmo-debate-one-students-experience-of-pro-gmo-propaganda-at-cornell-university/>

4) Steven Druker on TV-Ontario -

Steven M. Druker, J.D., public interest attorney and author of *Altered Genes, Twisted Truth*, exposes the fictions fostered during the discussion with GMO proponent Robert Wager on TVO's "The Agenda" - see:

<http://tvo.org/video/programs/the-agenda-with-steve-paikin/judging-gmos>

Transscript of this discussion:

<http://tvo.org/transcript/2344748/video/programs/the-agenda-with-steve-paikin/judging-gmos>

In this article „How-GMOs are defended by distorting the-facts“ Druker disproves the plant biologist Rober Wager's wrong claims of safe GMOs:

<http://www.gmwatch.org/news/latest-news/16694>

d) Articles and documents (published after AG-TT had been issued) that underpin essential statements about scientific deception and unacceptable health risks of GM-foods:

1. a) Almost every university of the USA is biased – for example: the Cornell University has abandoned scientific objectivity and, in the shape of its “Alliance for Science”, has instead made itself a global hub for the promotion of GM crops and food:

<http://naturalsociety.com/cornell-university-accused-hosting-gmo-propaganda-campaign-63938/>

b) The following article (2017) shows how this Alliance works for deceiving the public over the GMO health risks – please see

„Cornell Alliance for Science Evaluation of Consensus on Genetically Modified Food Safety: Weaknesses in Study Design“:

<http://journal.frontiersin.org/article/10.3389/fpubh.2017.00079/full>

2. The Alliance for Science is only one part of a much larger circle of academics promoting GMO crops on behalf of the biotech industry. Jonathan Latham PhD, virologist and editor of independentsciencenews.org, documented this in an article titled “The Puppetmasters of Academia”:

<https://www.independentsciencenews.org/science-media/the-puppetmasters-of-academia-ny-times-left-out/>

3. Even the National Research Council has strong ties to the biotech industry and other corporations. This creates conflicts of interest and raise questions about the independence of their work – see:

„Under the Influence: The National Research Council and GMOs“:

<http://www.foodandwaterwatch.org/insight/under-influence-national-research-council-and-gmos>

4. The Bill Gates-Foundation is massively directed by GE-companies – German article:

<http://www.heise.de/tp/artikel/47/47271/1.html>

5. a) Monsanto occupies an army of online bullies to dismiss any critical statements about the safety of GMOs and pesticides:

<http://responsibletechnology.org/monsantos-army-online-bullies/>

b) Monsanto’s is at war against science:

<http://gmwatch.org/en/news/latest-news/17688>

c) Monsanto drives a undercover-strategy with the help of purportedly independent scientists to discredit critics and NGOs warning about the health hazards of GM-foods:

<https://www.oneworld.nl/english/how-nobels4gmos-campaign-rife-biotech-industry-ties>

d) But „Hundreds Of GMO Studies BUSTED By Discovery Of Major Conflicts Of Interest“: <http://www.activistpost.com/2016/12/hundreds-gmo-studies-busted-discovery-major-conflicts-interest.html>

6. a) A new analysis using cutting-edge molecular profiling methods shows the genetic engineering process caused large increases in two potentially toxic compounds in a Monsanto Roundup-tolerant maize:

<http://www.gmwatch.org/news/latest-news/17378>

b) These findings are so essential that they were attacked by the biased SMC (*Science Media Centre*) immediately with full force:

<http://gmwatch.org/news/latest-news/17384>

7. Claims that numerous expert bodies have declared GMO crops to be safe are fraudulent and misleading:

<http://beyond-gm.org/who-says-gmos-are-safe-and-who-says-theyre-not/>

8. a) A Software-expert explains that „We're not ready for genetic engineering“:

<http://lockstep.com.au/blog/2011/01/15/not-ready-for-gm>

b) Another computer-expert confirms that DNA is so complicated that the belief one could be able to produce only the intended alterations by GE sounds like madness:

<https://www.westonaprice.org/book-reviews/thumbs-up-reviews/altered-genes-twisted-truth-by-steven-druker/>

9. a) The new GE-Techniques are GE even if called “new breeding techniques”:

http://www.theecologist.org/News/news_analysis/2988799/new_breeding_techniques_and_synthetic_biology_genetic_engineering_by_another_name.html

b) These „new“ GE-techniques lead to irresponsible genetic roulette for biological diversity –(article in German):

https://testbiotech.org/sites/default/files/Russisches_Roulette_mit_Biodiversitaet.pdf

10. „Can the off-target-effects of gene editing be reduced to almost nothing?“:

<http://www.gmwatch.org/news/latest-news/16814>

11. A propaganda war is in progress to convince us that genome editing is precise and accurate; but the problem is, it is neither:

<http://gmwatch.org/news/latest-news/16900>

12. Séralini’s long-term study of negative impacts caused by GM-corn NK603 and the herbicide Roundup found out serious significant differences which point to toxic and endocrine disrupting effects on the animals fed GM-corn and/or Roundup:

<http://earthopensource.org/gmomythsandtruths/sample-page/3-health-hazards-gm-foods/3-2-myth-seralini-2012-study-bad-science-conclusions-can-drawn/>

13. a) Emails discover that the Editor at the journal *Food and Chemical Toxicology* invited Monsanto scientists to review a study that found toxic effects from Monsanto products:

<http://www.gmwatch.org/news/latest-news/17121>

b) Monsanto started desperate efforts to get the Séralini-study retracted:

<http://www.gmwatch.org/en/news/latest-news/17764>

c) Even the editor of the journal FCT worked as a Monsanto's torpedo against the Séralini study:

<http://www.gmwatch.org/en/news/latest-news/17908>

d) The complete chronology of the Séralini-study (list in German):

http://www.attac-bielefeld.de/fileadmin/user_upload/Gruppen/Bielefeld/Chronologie-Seralini-Studie.pdf

14. Rats fed GM Bt corn MON810 for only 90 days suffered serious damage to the surface mucous membranes of the jejunum (part of the small intestine), according to a new Findings contradict reassuring reports on GM products, say researchers study:

<http://gmwatch.org/news/latest-news/17341>

15. Are GMO Bt toxins safe for people and environment or super toxins? – a meta-study shows: the real risks of every Bt-GMO-corn-plants have been disregarded (even by the authorities) for 20 years in order to get them registered: <http://gmwatch.org/en/news/latest-news/17888>

16. The European Food Safety Authority (EFSA) ignored warnings from several member-states that indicated to negative health impacts of the insecticide GMO-BT-corn MON89034:

<http://independentsciencenews.org/health/eus-gmo-regulator-ignored-human-health-warnings-over-a-monsanto-insecticidal-corn/>

17. The first definitive confirmation of liver dysfunction from low dose of Roundup: cutting-edge molecular profiling analyses reveal that the popular weedkiller Roundup causes liver damage at doses permitted by regulators:

<http://gmwatch.org/news/latest-news/17402>

18. Till now there isn't any convincing proof for the alleged food – or feed-safety of GMOs: „Claims of GM feed safety misleading – agricultural consultant”:

<http://gmwatch.org/index.php/news/archive/2015-articles/15948>

19. Peer-reviewed studies have found that GM foods can have unintended toxic and allergenic effects and altered nutritional value. Such effects have even been found in industry's own studies carried out in support of regulatory authorization.

<http://earthopensource.org/gmomythsandtruths/sample-page/3-health-hazards-gm-foods/3-1-myth-gm-foods-safe-eat/>

20. a) Why do media not report about such important critical studies?

<http://www.activistpost.com/2017/01/why-deadstream-media-ignores-gmo-studies.html>

21. The Brazilian Ministry of Agrarian Development (MDA) has just (2017) published an important new online book in English: “Transgenic crops hazards and uncertainties: More than 750 studies disregarded by the GMOs regulatory bodies”:

<http://www.mda.gov.br/sitemda/nead-debate>

You'll find the English version of this important online-book on:

http://www.mda.gov.br/sitemda/sites/sitemda/files/user_img_1756/Transgenic_Crops_WEB_LEVE.pdf

The following article introduces this essential online-book:

<http://www.gmwatch.org/news/latest-news/17483>

22. The assumption or opinion that all properties of living beings come from the DNA, that means that the DNA would be the so called master molecule of life, is wrong – therefore the theoretical legitimation for GE is questionable:

<https://www.independentsciencenews.org/health/genetics-is-giving-way-to-a-new-science-of-life/>

23. The world's first survey confirms experiences from several thousands of patients that recovered partly or fully from chronic diseases after they have changed their diets and started avoiding GMO foods:

<https://responsibletechnology.org/irtnew/wp-content/uploads/2017/11/Improved-Health-by-Avoiding-GMOs-by-Jeffrey-Smith.pdf>

and: <http://www.gmwatch.org/en/news/latest-news/17959>

24. A pedestrian from the USA reports about an epidemic in the USA and about children and people recovering after they started avoiding GMOs and pesticides in their diets – see this interview with Dr. Perro:

<https://www.gmoscience.org/whats-making-children-sick-can/>

25. Till now (2018) there isn't any reliable criticism or solid disproof of the main arguments of Steven Druker's book „Altered Genes, Twisted Truth“.

In an article Steven Druker exposes the wrong reproaches and the distortions that are used typically by GMO proponents in order to discredit his documentation:

http://www.attac-bielefeld.de/fileadmin/user_upload/Gruppen/Bielefeld/Kritik-an-Altered-Genes-ist-unsachlich.pdf

*

URL of this document:

http://www.attac-bielefeld.de/fileadmin/user_upload/Gruppen/Bielefeld/list_information_altered_genes_twisted_truth.pdf

*

You find a German version of this list here:

http://www.attac-bielefeld.de/fileadmin/user_upload/Gruppen/Bielefeld/Liste_Informationen_zum_Buch_Altered_Genes_Twisted_Truth.pdf
